PROFESSIONAL SUMMARY

Recent Computer Science graduate and MERN Stack Developer with hands-on internship experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive user interfaces, RESTful APIs, and JWT-based authentication, with practical experience deploying applications on AWS (EC2, Amplify) and MongoDB Atlas. Built and deployed a complete MERN e-commerce platform including payment gateway integration and an admin dashboard. Detail-oriented, quick to learn, and eager to contribute to a collaborative development team.

EXPERIENCE

MERN Stack Developer Intern

TechNova Solutions Pvt. Ltd.

📅 Jan 2025 – Mar 2025 📍 India

- Developed responsive, cross-browser web pages and reusable dashboard components using React.js, HTML5, CSS3, and JavaScript (ES6+), improving UI consistency across the application.
- Built and consumed RESTful APIs using Node.js and Express.js to connect frontend applications with backend services, enabling seamless data flow across the MERN stack.
- Designed and managed MongoDB collections and schemas to support efficient data storage, retrieval, and CRUD operations.
- Implemented JWT-based user authentication and authorization to secure application routes and protect user data.
- Identified and resolved bugs, optimized application performance, and enhanced UI responsiveness across devices.
- Collaborated with a cross-functional development team using Git and GitHub for version control, participated in daily stand-ups and code reviews, and tested APIs using Postman.

PROJECTS

E-Commerce Web Application

MERN Stack, AWS

Full-stack e-commerce platform built with the MERN stack enabling users to browse and search products, manage a shopping cart and wishlist, and complete secure checkout with integrated payment processing. Includes an admin dashboard for managing products, categories, users, and orders.

- Implemented user registration, login, and JWT-based authentication, along with product listing, category filtering, and search functionality.
- Built shopping cart, wishlist, secure checkout, and order history features, and integrated the Razorpay payment gateway for online transactions.
- Developed an admin dashboard for product, category, and order management, and designed a fully responsive UI using React.js, Redux Toolkit, and Tailwind CSS.
- Deployed the frontend on AWS Amplify and the backend on Amazon EC2, using MongoDB Atlas as the cloud database, resulting in a fully live, production-style application.

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB Atlas, JWT, Razorpay, Tailwind CSS, Axios, REST APIs, AWS EC2, AWS Amplify, Git, Postman

TECHNICAL SKILLS

JavaScript (ES6+)
HTML5 / CSS3
React.js
Redux Toolkit
Node.js
Express.js
MongoDB / Atlas
Tailwind CSS
REST APIs
JWT Authentication
AWS (EC2, Amplify)
Git & GitHub

TOOLS

Postman
VS Code
npm
Razorpay
Axios

SOFT SKILLS

Problem-Solving
Detail-Oriented
Team Collaboration
Adaptability
Eagerness to Learn

LANGUAGES

English
Hindi

EDUCATION

B.Sc. in Computer Science
ABC Institute of Technology, Lucknow
2025 | CGPA: 8.6/10
